THE SIGNS AND SCIENCE OF CULINARY DELIGHTS

If we are to believe in the zodiac system, which many people do, our sun signs are a big giveaway - of our traits, personalities, idiosyncrasies and not to mention our preferences in food, like what you're about to choose from this menu.

At Zodiac, we have decided to give our menu a twist. Or if we may say so, a kind of a new spin. This menu is not just a representative of cuisines from across the world - Italian, Mexican, Mediterranean, Continental, Thai and Indian - but how, by popular consensus, they represent the different sun signs*. Of course, in an ambience to heighten the mysticism of our cosmic origin.

Go ahead, choose from what the signs are indicating. Or you may want to try out something from another sign. Either ways, we're putting our heart in it to delight you.

*The content in this menu is a compilation of some widely held views on the food preferences of different zodiac signs. This is not in any way a representation of our personal view.
