BEST
SELLER

Mushroom Risotto (JC)

380/590

Creamy mushroom risotto with earthy, sautéed mushrooms, fragrant herbs, and Parmesan - rich, comforting and full of deep, umami flavor in every bite.

Originating in northern Italy, risotto has its roots in the introduction of rice to Italy by the Arabs in the Middle Ages, around the 14th century. The fertile plains of the Po Valley provided ideal conditions for growing short-grain rice, called Arborio which would become staple of Italian risotto.

Unlike other rice dishes, risotto is known for its creamy texture, achieved by slowly cooking rice while gradually adding broth and stirring constantly.

Risotto is rich and indulgent, with a luxurious creaminess, a delicate chew from the rice and flavors that range from earthy and savory to bright and aromatic

Our Neapolitan-style pizza is a true testament to the art of fermentation. With 48 hours of slow fermentation, the dough becomes impossibly light, airy, and easy to digest. This careful process breaks down the ingredients, creating a delicate, naturally flavorful crust that's both crisp and satisfying. Hand-stretched with care, the dough is baked at a high heat of 400-450°C, giving it a perfect balance of crispiness and tenderness. Made with authentic Italian flour and only the freshest ingredients, each bite is a celebration of quality, tradition, and flavor.
